

EXF

ATEX

50Hz./ 60Hz.

Available options

- **Power supply:**
 - 230-690 50/60Hz.
 - Three phase without Neutral.
- **Air flows** available from 100m³ / 30.000m³ / h.
- **Structure:**
 - Stainless steel **AISI-316**.
 - Full **Painted unit**.
 - Pressurization equipment with **horizontal structure**.
 - Pressurization equipment built into the wall, **window type**.
 - Pressurization equipment with **separate control panel**.
 - Structure **customized** according to the specifications.
- **Air circuit:**
 - Double fan to ensure pressurization into the room.
 - Function main and standby fan.
 - Signal "Start both fans".
 - Non return air dampers.
 - Direct coupling semi-rigid.
 - Single inlet centrifugal fan with direct coupling drive.
 - Other designs available, consult the dealer.
 - Ex electrical air dampers.
 - Electro-pneumatic actuator air dampers.
 - Fire dampers.
 - Thermal flow switch detector.
 - Air flow signal lower than percentage (%).
- **Interface:**
 - Custom control panel.
 - Customize input and output signals.
